Supply Chain Optimization Program Success Stories

VEDP's Supply Chain Optimization Program has provided tailored support to 60+ Virginia businesses since 2021.

Babylon Micro-Farms

- **Structured Vendor Management:** Supported formal processes with domestic and international suppliers
- **Cost Reduction:** Minimized BOM costs tied to new products and international sourcing
- **Scalable Operations Plan:** Created a supply chain strategy focused on growth and knowledge transfer.
- **ERP Optimization:** Upgraded systems for better productivity, cost-efficiency, and quality control

AccuTec Blades

- **Operational Optimization:** Improved production scheduling, SKU rationalization, and MRP processes
- **Smarter Inventory Management:** Minimized applied best practices to right-size inventory
- **Strategic Program Impact:** Created a supply chain strategy focused on growth and knowledge transfer

AgroSpheres

- **Supplier Connections:** Connected with potential suppliers for key ingredients
- **Manufacturing Risk Reduction:** Assessed chemical suppliers to mitigate operational risks
- **Market Insights:** Identified key markets that support and align with manufacturing goals

PastryBase

- **ERP Upgrades:** Implemented software to streamline inventory management
- **Supply Chain Trainings:** Enhanced team knowledge to reduce operational risks
- **Market Insights:** Identified strategic markets aligned with importing goals

Virginia International Gateway, Portsmouth

"As a small but growing business, the expertise, tools, and connections offered by the program have been transformative.

David Colodner, Director of Operations, Babylon Micro-Farms
